Subject: Organizing the 8<sup>th</sup> Edition of "International Conference on Nanotechnology for Better Living" NBL-23 from 25-29 May 2023 under G-20

Esteemed Sir,

We are pleased to inform that the 8<sup>th</sup> edition of biennial International Conference on Nanotechnology for Better Living (NBL-23) is being organized by NIT Srinagar (J&K) in association with the prestigious institutions including IIT BHU and Parul University, Gujarat. The science summit under G-20 is expected to provide a platform to discuss path breaking research ideas and innovations for the betterment of humanity.

We have made arrangements for the pre-conference tutorials for our bright school/ college students who are supposed to work on innovative projects as envisaged in New Education Policy and to address the Sustainable Development Goals (SDGs). Thus, dedicated sessions, "Nurturing minds for a better world" shall be conducted during the conclave, thus handing over this multidisciplinary science to our young and smart generation.

Nearly 500 delegates including few from abroad are expected to attend the science summit. To ensure smooth and successful scientific event we require cooperation from the J&K UT Government.

Under G-20, the Department of Higher Education, School Education, Medical Colleges, Environment and Water Conservation need to be connected for better outcome of the educational efforts.

Further details of the event can be had from [www.icnbl.org](http://www.icnbl.org).

With best regards,

Yours sincerely,

Prof. (Dr.) Kaiser Bukhari  
Registrar
